Year Group News

## Year 5

This week year 5 have been experimenting with plants. We have chosen different parts of a parent plant to cultivate, finding out how much we need to be able to create new growth. Each group has chosen their own plant and planned their investigation, thinking carefully about the different factors that will impact the outcome. We have had great success growing new garlic plants, as well as some baby carrots and strawberry plants.

We have also been practicing our sewing in DT, focussing on adding embellishments such as beads and applique patches using a range of stitches.

## School Association

Thank you so much to all the amazing staff, parents and carers who have already put their names down to help at our Summer Fair on **Saturday 14<sup>th</sup> June**. We are very fortunate to have you! We are still just a couple of volunteers short for the second shift, taking place between 1.30 and 3pm, so if you could spare us a little of your time, that would be fabulous!
